Introduction

“If you are not pursuing your purpose in life, you are living a fancy death.”

Every day I see many people commuting from place to place to get something accomplished. As I observe their actions, I ask myself, “Where are they going so fast? Why are they doing what they are doing?” Everyone wants to be successful in life, but we have missed the mark in understanding what success really is. Success is not a happening or an event; it is a series of intended outcomes coming to pass. In all reality, success is not the final desired goal of life, but rather it is fulfillment. Anything that does not lead to your personal fulfillment is not success. It has become a misconceived concept about vast materialism. Sadly, this is far from the truth. Success is the product of three foundational principles: the identification of purpose, vision, and the fulfillment of action.

The Principles of Success

Purpose

To everything, there is a why. Therefore, your life has a purpose and you must find out why you're on earth.

Vision

After you discover why you're here, the only way to express who you are to the world is through developing a unique vision for your life.

Action

The possession of this awesome vision requires work. You have to put action behind your vision.

Fulfillment

Fulfillment is the result of your purpose being perfectly manifested and revealed to the world.

I have personally practiced and experienced the principles in this book, and I want you to live the fulfilled life you de-serve, and produce success on a daily basis. Come on a journey with me as I help you to strategically discover your purpose, develop a vision, and take action towards the life you were born to **live!**

Part I

Discovering your Purpose

"If you aren't pursuing your purpose in life, you're simply living a fancy death."

CHAPTER I

Understanding Yourself and Others

The Beginning of Life

WHO AM I!? WHERE DO I GO!? WHAT CAN I DO!?

These three questions resonate unconsciously in the hearts of every human being on earth. All 6.9 billion people on earth are burdened with responsibility of discovering who they are, why they are, and what they can offer to the world. If you are on this earth, you were put here by the Creator because of a need that has to be met. You are not a mistake, but a product of purpose. The mystery of purpose is a struggle for of the world's population on earth because most education and religious systems deviate away from this pertinent topic. Furthermore, most people do not understand that purpose only comes by the unique gifts you have had in you since birth. Fortunately, your purpose is easier to find than you think. Let's take an odyssey into the matter of gift discovery.
